

Kindness Cloud Foundation Kindness Cloud Certificates

You can use **Kindness Certificates** to encourage, recognize, and reward **Acts of Kindness**. Teachers, parents, and grandparents can give or send them to children, students, or adults. Employers, colleagues, and neighbors can give to send them to each other. Anyone can post them on social media.

To obtain the different free **Kindness Certificates**, go to KindnessCloud.org/Tools, scroll down to the **Kindness Certificates Tab**, and click on the **Plus Sign (+)**. There is a JPG image and a PDF document version of each certificate. You can download, print, copy, or post either version, as appropriate.

For individual recipients, enter the name and date by hand, and then either present or take a picture of the named certificate. You can also insert the name and date directly into an electronic copy if you have the appropriate software.

All certificates look the same; only the title of the recipient is different. Do you have an idea for a certificate? Let us know at info@KindnessCloud.org.
